

## Topic Disposition Summary Breast Feeding Continuation Data

**Date:** 10/10/2024

**Nomination Number:** 1116

**Purpose:** This document summarizes the information addressing a nomination submitted on September 26, 2024, ([link to EHC posted topic nomination](#)) through the Effective Health Care Website. This information was used to inform the Evidence-based Practice Center (EPC) Program decisions about whether to produce an evidence report on the topic, and if so, what type of evidence report would be most suitable.

**Issue:** The nominator of this topic seeks to establish a comprehensive assessment and tracking system that would allow for more efficient and widespread collection of breastfeeding continuation data in the United States.

**Findings:** Collecting primary data or creating data tracking systems does not fall within the scope of the AHRQ Effective Healthcare Program, which is focused on synthesizing existing research and producing evidence products such as systematic reviews and meta-analyses.
